

ParagonDx, a leader in molecular testing diagnostics,
has developed a collection of whole genome DNA controls for Illumina's Veracode® ADME platform.

PRICING: \$50 EACH

— *MINIMUM ORDER \$250.00* —

For Research Use Only. Not for use in diagnostic procedures. Patent Pending.

ParagonDx controls offer:

- Human genomic DNA that is derived from properly-consented individual donor samples
- Controls manufactured in a cGMP facility
- **Vials containing 200µl at a concentration of 50ng/µl for a total of 10,000ng of DNA**
